

CHARG

THE SAN FRANCISCO BAY REGIONAL · COASTAL HAZARDS ADAPTATION RESILIENCY GROUP

Bay Area Coastal Project Details Form

The purpose of this form is to gather information about coastal hazards projects being conceptualized or built on the Bay Area shoreline to add to a “visual map.” This map will serve as a tool to help us work together to optimize resources by identifying regional partnership opportunities.

**Please provide the details of your project by responding to the 15 questions below (short answers okay).
Send your completed form to Ellen Cross at e.cross@conveyinc.com**

Your Name _____ Contact # _____

1. Coastal project name within tidal zone
2. Project Location (city, geospatial coordinates)
3. Project Lead / Collaborative Partners
4. Project status and projected date of completion (e.g. planned, conceptual design, final design, construction)
5. Current funding source(s) (State/Federal/Local grants, taxes, fees etc)
6. Projected costs through construction
7. Technical/Analytical methodologies (e.g. survey data, Lidar, models, special studies)

8. Baseline datum used

9. Challenges to be addressed (e.g. regulatory, land use, physical constraints, stakeholder issues)

10. Did this project participate in a regional program and if so which one(s)? (e.g. IRWMP, clean water program)

11. How does your project include future sea level rise/extreme tide conditions? If so identify particulars.

12. Who else may have interest in your project?

13. What multi benefits will this project achieve and what achievements did this project accomplish?

14. How might this project contribute to a regional solution to sea level rise in the San Francisco Bay?

15. To gain more information about your project, please provide any websites or contacts.
